

china. Since the meeting on December 1, the United States and China have engaged in additional rounds of negotiation on these issues. In light of progress in discussions with China, on February 24, 2019, the President directed the Trade Representative to postpone the increase in tariffs scheduled for March 2, 2019.

Section 301(b) of the Trade Act of 1974, as amended (Trade Act), provides that the Trade Representative “shall take all appropriate and feasible action authorized under [Section 301(c)] to obtain the elimination of [the] act, policy, or practice [under investigation].” Section 307(a)(1) of the Trade Act authorizes the Trade Representative to modify or terminate any action being taken under Section 301, subject to the specific direction, if any, of the President if “the burden or restriction on United States commerce . . . of the acts, policies, and practices, that are the subject of such action has increased or decreased, or such action is being taken under Section [301(b)] of this title and is no longer appropriate.” In light of progress of the additional rounds of negotiations since December 2018, and at the direction of the President, the Trade Representative has determined that it no longer is appropriate for the rate of duty under the September 2018 action to increase to 25 percent on March 2, 2019, and that the rate of duty under the September 2018 action will remain at 10 percent until further notice.

The Trade Representative’s decision to modify the September 2018 action takes into account the extensive public comments and testimony, as well as advice from advisory committees, concerning the actions proposed in the notices issued in advance of the September 2018 action (83 FR 33608 and 83 FR 38760). Those notices, among other things, requested comments on whether the rate of additional duties should be 10 percent or 25 percent. The Trade Representative’s decision also reflects the advice of the interagency Section 301 Committee.

To effectuate the Trade Representative’s decision, Annex B of the September 21 notice (83 FR 47974) and the Annex to the December 19 notice (83 FR 65198), hereby are rescinded. In accordance with Annex A of the September 21 notice, the rate of duty under the September 2018 action

will remain at 10 percent until further notice.

Stephen P. Vaughn,

General Counsel, Office of the United States Trade Representative.

BILLING CODE 3290–F9–P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Little Cottonwood Canyon, Salt Lake County, Utah

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Revised Notice of Intent to Prepare an Environmental Impact Statement.

SUMMARY: FHWA on behalf of the Utah Department of Transportation (UDOT) published a Notice of Intent (NOI) in the **Federal Register** on March 9, 2018. FHWA on behalf of UDOT is issuing this notice to advise the public that UDOT intends to revise the scope of the analysis of the Little Cottonwood Canyon project based on new information collected from the public and agencies during the scoping process and development of the project need.

FOR FURTHER INFORMATION CONTACT:

Brandon Weston, Environmental Services Director, UDOT—Environmental Services Division, 4501 South 2700 West, P.O. Box 141265, Salt Lake City, Utah 84114–1265; Telephone: (801) 965–4603; Email: brandonweston@utah.gov. John Thomas, PE, Little Cottonwood Canyon Project Manager, UDOT Region 2, 2010 South 2760 West, Salt Lake City, Utah 84104–4592; Telephone: (801) 550–2248; Email: johnthomas@utah.gov.

SUPPLEMENTARY INFORMATION: The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being or have been carried out by UDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated January 17, 2017, and executed by FHWA and UDOT.

On March 9, 2018, at FR Vol. 83, No. 47, page 10545, FHWA on behalf of UDOT issued a NOI for UDOT, as the lead agency under the National Environmental Policy Act (NEPA), to prepare an Environmental Impact Statement (EIS) for proposed improvements to SR–210, a two-lane roadway, in Little Cottonwood Canyon in Salt Lake County, Utah. The proposed project study area in the NOI

extended from the intersection of SR–210 and SR–190/Fort Union Boulevard in Cottonwood Heights, Utah to the terminus of SR–210 in the town of Alta, Utah. The extent of the project study area has not changed with this revised NOI.

As part of the release of the NOI and the EIS process, UDOT invited public and agency comments during a scoping period from March 9 to May 4, 2018, which included a public scoping meeting on April 10, 2018. During the scoping period UDOT gathered information about the public and agency concerns and began development of the EIS by defining the purpose of and need for improvements to SR–210. After reviewing scoping comments and the need for the project, UDOT has revised the scope of the EIS to focus on the following: (1) Taking no action; (2) one or more alternatives involving multiple, combined actions, including:

- Transportation System Management (TSM);
- Enhancing safety and improving winter time mobility through avalanche mitigation;
- Enhancing safety, access, and mobility in the area through improved designated parking areas at existing U.S. Department of Agriculture (USDA) Forest Service trailheads; and
- Roadway improvements to SR–210 on Wasatch Boulevard from SR–190/Fort Union Boulevard to North Little Cottonwood Canyon Road; and (3) other alternatives if identified during the EIS process. Alternatives that do not meet the project purpose and need or that are otherwise not reasonable will not be carried forward for detailed consideration.

The project may require FHWA to appropriate National Forest System lands and transfer such lands to UDOT for highway use, pursuant to authority under 23 U.S.C. 317. The project may also require approvals by the USDA Forest Service, the U.S. Army Corps of Engineers, and/or other agencies. The USDA Forest Service, the U.S. Army Corps of Engineers, the U.S. Environmental Protection Agency, Utah Transit Authority, and Salt Lake City Department of Public Utilities have accepted UDOT’s invitation to be cooperating agencies under the March 9, 2018 NOI and are expected to continue in this role with the revised scope.

Letters describing the revised scope and soliciting comments will be sent to appropriate Federal, state, and local agencies as well as to Native American tribes and to private organizations and citizens who have previously expressed, or who are known to have, an interest in this proposal. UDOT will hold a

public scoping meeting on April 9, 2019 from 4:00 p.m. to 8:00 p.m. at Cottonwood Heights City Hall, 2277 East Bengal Boulevard, Cottonwood Heights, Utah 84121 to provide information on the revised scope and to seek additional public and agency input. Public notices announcing the meeting will be published in the region. Information regarding this meeting and the project may also be obtained through a public website maintained by UDOT at www.udot.utah.gov/littlecottonwoodeis.

During the NEPA process, other public meetings will be held as appropriate to allow the public, as well as Federal, state, and local agencies, and tribes, to provide comments on the purpose of and need for the project, potential alternatives, and social, economic, and environmental issues of concern.

In addition, a public hearing will be held following the release of the Draft EIS. Public notice advertisements and direct mailings will notify interested parties of the time and place of the public meetings and the public hearing. The Draft EIS will be available for public and agency review and comment prior to the public hearing.

To ensure that the full range of issues related to this proposed action is addressed and all significant issues are identified, comments and suggestions are invited from all interested parties. Written comments or questions concerning this proposed action and the EIS should be directed to UDOT representatives at the mail or email addresses provided above by May 3, 2019. For additional information please visit the project website at www.udot.utah.gov/littlecottonwoodeis. Information requests or comments can also be provided by email to littlecottonwoodeis@utah.gov.

(Catalog of Federal and Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Issued on: February 27, 2019.

Ivan Marrero,

Division Administrator, Federal Highway Administration, Salt Lake City, Utah.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION

Maritime Administration

[Docket No. MARAD-2019-0012]

Deepwater Port License Application: Texas COLT LLC (Texas COLT)

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Notice of application.

SUMMARY: The Maritime Administration (MARAD) and the U.S. Coast Guard (USCG) announce they have received an application for the licensing of a deepwater port and that the application contains information sufficient to commence processing. This notice summarizes the applicant's plans and the procedures that will be followed in considering the application.

DATES: The Deepwater Port Act of 1974, as amended, requires at least one public hearing on this application to be held in the designated Adjacent Coastal State(s) not later than 240 days after publication of this notice, and a decision on the application not later than 90 days after the final public hearing(s).

ADDRESSES: The public docket for the Texas COLT deepwater port license application is maintained by the U.S. Department of Transportation, Docket Management Facility, West Building, Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590. The license application is available for viewing at the [Regulations.gov](http://www.regulations.gov) website: <http://www.regulations.gov> under docket number MARAD-2019-0012.

We encourage you to submit comments electronically through the Federal eRulemaking Portal at <http://www.regulations.gov>. If you submit your comments electronically, it is not necessary to also submit a hard copy. If you cannot submit material using <http://www.regulations.gov>, please contact either Mr. Ken Smith, USCG or Mr. Linden Houston, MARAD, as listed in the following **FOR FURTHER INFORMATION CONTACT** section of this document. This section provides alternate instructions for submitting written comments. Additionally, if you go to the online docket and sign up for email alerts, you will be notified when comments are posted. Anonymous comments will be accepted. All comments received will be posted without change to <http://www.regulations.gov> and will include any personal information you have provided. The Federal Docket Management Facility's telephone number is 202-366-9317 or 202-366-9826, the fax number is 202-493-2251.

FOR FURTHER INFORMATION CONTACT: Mr. Ken Smith, U.S. Coast Guard, telephone: 202-372-1413, email: Ken.A.Smith@uscg.mil, or Mr. Linden Houston, Maritime Administration, telephone: 202-366-4839, email: Linden.Houston@dot.gov. For questions regarding viewing the Docket, call Docket Operations, telephone: 202-366-9317 or 202-366-9826.

SUPPLEMENTARY INFORMATION:

Receipt of Application

On February 4, 2019, MARAD and USCG received an application from Texas COLT for all Federal authorizations required for a license to own, construct, and operate a deepwater port for the export of oil as authorized by the Deepwater Port Act of 1974, as amended, 33 U.S.C. 1501 *et seq.* (the Act), and implemented under 33 Code of Federal Regulations (CFR) Parts 148, 149, and 150. After a coordinated completeness review by MARAD, the USCG, and other cooperating Federal agencies, the application is deemed complete and contains information sufficient to initiate processing.

Background

The Act defines a deepwater port as any fixed or floating manmade structure other than a vessel, or any group of such structures, that are located beyond State seaward boundaries and used or intended for use as a port or terminal for the transportation, storage, and further handling of oil or natural gas for transportation to, or from, any State. A deepwater port includes all components and equipment, including pipelines, pumping or compressor stations, service platforms, buoys, mooring lines, and similar facilities that are proposed as part of a deepwater port to the extent they are located seaward of the high-water mark.

The Secretary of Transportation delegated to the Maritime Administrator authorities related to licensing deepwater ports (49 CFR 1.93(h)). Statutory and regulatory requirements for processing applications and licensing appear in 33 U.S.C. 1501 *et seq.* and 33 CFR part 148. Under delegations from, and agreements between, the Secretary of Transportation and the Secretary of Homeland Security, applications are jointly processed by MARAD and USCG. Each application is considered on its merits.

In accordance with 33 U.S.C. 1504(f) for all applications, MARAD and the USCG, working in cooperation with other involved Federal agencies and departments, shall comply with the requirements of the National
